

## An Ultra-Accurate Size Measurement Solution

An Easy & Convenient Solution for Ordering Uniform & Workwear Online

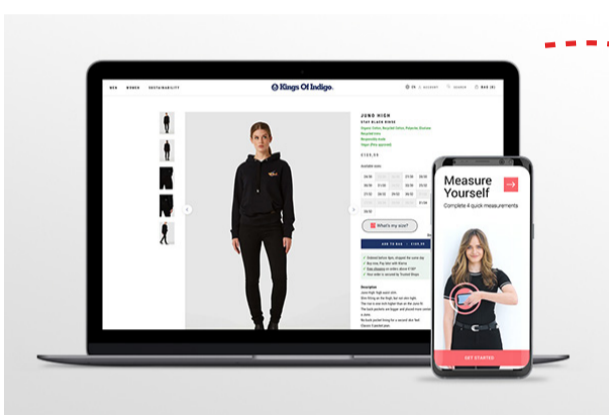

**Order uniforms, workwear, and PPE with confidence**

**Easy, Convenient, Accurate & Contactless Ordering:** eliminating industry "staples" such as costly manual, physical measurements, or worn sample garments

**Increase revenue by reducing over-ordering costs**

### An accurate and easy online sizing solution for workwear and uniform manufacturers

Teams can order uniforms and workwear online, sized to their personalized fit and style, safely, without the need for in-person fitting.

### At-home, contactless, personalized workwear sizing, including Personal Protection Equipment

The MySize size and style fitting solution that utilizes ultra-high accuracy AI & Machine Learning measurement technology to ensure the right uniform fit every time, personalized to each team member's individual measurements.

### Improve manufacturing efficiencies by providing personalized size accuracy to reduce costs associated with overordering and returns

MySize has been proven to grow revenue by increasing customer confidence in size and style selection when shopping for workwear online. Using a smartphone-based measurement, a customer's personal size is matched with a relevant recommendation for a perfect fitting uniform.

### Contributing to a Sustainable World

The MySize solution promotes environmental sustainability by helping the uniform and workwear sector to reduce its carbon footprint by reducing returns and related operating, transportation and restocking waste.

Partnering with MySize was really an easy choice once we experienced the solution for ourselves," said Ashok Reddy, CEO and Founder of UniformMarket. "Our customers aren't looking for a complicated sizing solution requiring a camera and a friend. They want something simple and effective, and that's exactly what our partnership with MySize provides."
