For 40 years, Forint has been providing clothes and uniforms of high quality through trust, accuracy, and tailored solutions. Forint’s customers in Italy include large retailers, airlines, cruise ship companies, railway companies, passenger and goods transport companies, airports, roads and motorways, recycling operatives, local police, banking institutions, sports federations, military corps, and hotels.

Paolo Tansini, Forint’s Sales Manager, commented, “For decades, Forint has been delivering efficiency and speed while maintaining class and attention to detail with sartorial elegance. We’ve done this by adopting technology and working with the best. We believe MySizeID will further support and enhance Forint’s excellence in customer service and flawless fit.”

“We are very pleased to partner with Forint to ensure optimal uniform fit and user experience for all of Forint’s institutional and corporate customers,” stated MySize CEO and Founder, Ronen Luzon. “Our sizing solutions are designed to improve economics while reducing environmental waste. We are eager to share these benefits with Forint’s broad and prestigious customer base in Italy.”

### **About MySize Inc.**

MySize, Inc. (NASDAQ: MYSZ) (TASE: MYSZ.TA) is an omnichannel e-commerce platform and provider of AI-driven measurement solutions including MySizeID and recently acquired Naiz Fit to drive revenue growth and reduce costs for its business clients. Orgad, its online retailer platform, has expertise in e-commerce, supply chain, and technology operating as a third-party seller on Amazon.com and other sites. MySize recently launched FirstLook Smart Mirror, a mirror-like touch

display that provides in-store customers an enhanced shopping experience and contactless checkout. FirstLook Smart Mirror extends MySize's reach into physical stores and is expected to contribute to revenues through unit sales and recurring service fees.

MySize has developed a unique measurement technology based on sophisticated algorithms and cutting-edge technology with broad applications, including the apparel, e-commerce, DIY, shipping, and parcel delivery industries. This proprietary measurement technology is driven by several algorithms that are able to calculate and record measurements in a variety of novel ways.
